SVC Days, September 28, 2004

Centre NTE : Teachers Support

- Support SVC projects and local projects (< 50K CHF)
- 7 persons (Full Time Equivalent)
 - ◆ 1/3 from SVC financing (CSPC)
 - ◆ 1/3 from SVC financing (mandates)
 - ◆ 1/3 from local financing
- Competencies
 - ◆ Technology
 - ◆ Pedagogy
 - ◆ Usability
 - ◆ ...

Factors for Long Term Sustainability

- Visionary people
- Preliminary experience and resource
- Key persons : the expert practitioner (in a team)
- Resource centre favouring access to computing and pedagogy competencies
- Places of discussion, valorisation and collaboration
- Common tool for all the teachers allowing the realisation of their projects (computing and pedagogy)
- Variety of projects and usages at diverse levels : "small" starting projects, e-learning is no expensive project
- Funds for pedagogical development (FPD)
- Support and pressure of external environment
- Active and interactive course
- Teacher training : computing and pedagogy, linked with teachers' projects, through experiments
- Objectives well defined
- Initiative liberty for teachers and experimentation place
- A Strong institutionnal support : clear, explicit, coherent and continuous pedagogical action of authorities
- The institution highlights pedagogical innovation (in particular introduction of ICTs)
- Articulation of research and service
- Infrastructure for logistical means (equipped rooms, computer availability, ...)
- Culture of teaching and of ICT's use in teaching (thinking on usages)
- Taking into account students needs
- Curriculum integration and valorisation of the courseware
- Reasonable investment compared to usage
- Minimal technical investment
- Good responsibilities definition and distribution between partners
- Correct first choices regarding the pedagogical models and the technological choices
- Strong teachers implication
- Good planing with clear and detailed milestones
- Good communaion between partners
- Human factors are essential
- Well defined production (who does what, validation, ...)
- Being motivated and motivate the team
- ...

Selected Factors for Long Term Sustainability

- CPSC with diverse competencies :
Technology, Pedagogy, Usability
- Curriculum integration and valorisation of the courseware :
The W.W.W.W model :
What is taught in Which context When and Where
- Use of a supported platform or use of open standards
